## Kitty Hawk Obtains CRS Certification for 2010

The Kitty Hawk Planning & Inspections Department is pleased to report that the Town of Kitty Hawk has been recertified as a participant in the Community Rating System (CRS) program for the year 2010. Administered by the Federal Emergency Management Agency (FEMA), the CRS program is intended to enhance public safety, reduce damage to property and public infrastructure, protect the environment, and avoid economic disruption and losses due to flooding.

For communities that follow certain measures to educate citizens and limit flooding damage, the CRS program provides lower insurance premiums under the National Flood Insurance Program (NFIP). The Town of Kitty Hawk has maintained a Class 6 rating, which provides a 20% flood insurance premium reduction to our property owners. With the most

recent FEMA figures showing that 1,500 flood insurance policies are purchased annually in Kitty Hawk, it's clear that a great percentage of the Town's residents, businesses, and property owners benefit from participation in the CRS program. The Town of Kitty Hawk's Class 6 rating is tied with Nags Head and Southern Shores for the best among Outer Banks communities.

# The activities in which the Town of Kitty Hawk has engaged to maintain a Class 6 rating include:

- 1. Adopt and enforce a Flood Damage Prevention Ordinance that complies with NFIP standards.
- 2. Require a one foot freeboard requirement for all construction, electrical, HVAC, plumbing, and other mechanical work.
- 3. Adopt and enforce the Town's Erosion and Sediment Control Ordinance in compliance with NC DENR standards.
- 4. Adopt and implement the goals of the Town's Hazard Mitigation Plan.
- 5. Require and maintain (in perpetuity) elevation certificates for new development and substantially damaged and improved properties.
- 6. Maintain documentation about inquires into Flood Insurance Rate Map (FIRM) zones. Advise anyone inquiring about flood damage protection standards and flood insurance.
- 7. Provide flood maps and related floodplain management information to property owners, insurance agents, and other interested parties.
- 8. Mail information about flood damage prevention, flood insurance, and safety measures twice annually to all property owners.
- 9. Post a variety of flood information on the Town's website and a link to FEMA's website.
- 10. Assist FEMA and the State of NC in efforts to update the annual erosion rate maps.
- 11. Acquire and maintain deeded open space on properties located in Special Flood Hazard Areas (examples include Kitty Hawk Woods Coastal Reserve and ocean front properties).
- 12. Track and submit an annual report on repetitive loss properties.
- 13. Acquire and relocate buildings within flood hazard areas.
- 14. Provide map and permit records to CRS documenting structures that were protected from flood hazards.
